INFORMATION BULLETIN RE ALBERTA COST OF SERVICE

The Alberta Cost of Service Information Bulletin for the month of May, 1983 is attached.

The Information Bulletin consists of:

1. Copies of any special Orders or Determinations issued by the Commission during the month with respect to Alberta Cost of Service, and notice of any Statements of Objection which have been received during the month; and
2. Alberta Cost of Service Determinations for the month.

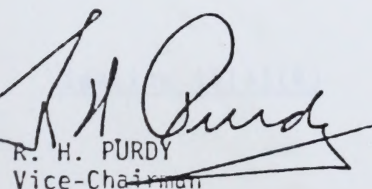

In the case of gas intended to be removed from Alberta, the cost of service determined under Section 11(1), 15(3)(a) and 15(5)(b)(i) of the Natural Gas Pricing Agreement Act for each month is based on estimated figures for that month, adjusted to allow for differences between the estimated and actual figures for the previous month.

In the case of gas intended for consumption within Alberta, the amount estimated as cost of service under Sections 11(2)(a)(ii) and 15(3)(b)(i) of the Act were made under the Commission's general directive for the Alberta cost of service.

All determinations are on gross or higher heating value on a dry basis, at 15°C and an absolute pressure of 101.325 kPa (kilopascal).

Yours very truly,

ALBERTA PETROLEUM MARKETING COMMISSION

R. H. PURDY
Vice-Chairman
